Second-Order Thinking. In his exceptional book, *The Most Important Thing*, Howard Marks explains the concept of second-order thinking, which he calls second-level thinking. First-level thinking is simplistic and superficial, and just about everyone can do it (a bad sign for anything involving an attempt at superiority). All the first-level thinker needs is an opinion about the future, as in "The outlook for the company is favorable, meaning the stock will go up." Second-level thinking is ...

In the 'second wave' of critical thinking, as defined by Walters, many authors moved away from the logocentric mode of critical thinking that the 'first wave' privileged, especially in institutions of higher learning. Scholars began to take a more inclusive view of what constituted critical thinking, but rationality and logic are still widely accepted in many circles as the primary examples of critical thinking.
